# TUBERCULOSIS and THORAX

## TÜBERKÜLOZ ve TORAKS

Volume 73 • Issue 3 • September 2025

### Research Articles

Enhancing tuberculosis diagnosis: A deep learning-based framework for accurate detection and quantification of TB *bacilli* in microscopic images  
Dinesh Jackson Samuel RAVINDRAN, Rajesh Kanna BASKARAN

Demographic and diagnostic trends in patients with histopathologically diagnosed pulmonary sarcoidosis: A 10-year single-center experience  
Baran GÜNDOĞUŞ, Tekin YILDIZ, Meltem AĞCA, Selahattin ÖZTAŞ, Ülkü AKA AKTÜRK, Sümeyye ALPARSLAN BEKİR, Özlem SOĞUKPINAR, Dilem ANIL TOKYAY, Ayşem Aşkın ÖZTİN GÜVEN, Birsen OCAKLI

Atelectasis in children: Results of flexible fiberoptic bronchoscopy  
Mehmet Mustafa ÖZASLAN, Gökçen KARTAL ÖZTÜRK, Meral BARLIK, Fevziye ÇOKSÜER, Bahar GİRGİN DINDAR, Ece OCAK, Ece HALİS, Atacan ÖGÜTÇÜ, Figen GÜLEN

Diagnostic value of routine usage of lung ultrasound in patients admitted to chest diseases outpatient clinic  
Sinem YALÇIN YETİMOĞULLARI, Bilkay SEREZ KAYA, Derya KARABULUT, Osman Nuri HATİPOĞLU

Distribution of fluids between body compartments following fluid therapy in cardiac surgery  
Göksele GÜVEN, Jonathan MONTOMOLI, Stephanie ROELEN, Emanuele FAVARON, Arzu TOPELİ, Bas DE MOL, Can İNCE, Wim Jan VAN BOVEN

Investigation of the efficiency and safety of half-dose and full-dose tissue plasminogen activator therapy in pulmonary embolism  
Kerim KARADUMAN, Nuri TUTAR, Burcu BARAN, Nur Aleyna YETKİN, İnci GÜLMEZ

...

### Case Report

Disseminated tuberculosis despite preventive treatment in patients treated with tumor necrosis factor inhibitors: A report of two cases  
Roberto RENTERÍA-GÁMEZ, Wendy Rosario CINENCIO-CHAVEZ, Claudia Miriam ZARAGOZA-CALDERÓN, Rafael LANIADO-LABORIN

...

# TUBERCULOSIS and THORAX

## TÜBERKÜLOZ ve TORAKS

### AIMS AND SCOPE

Tuberculosis and Thorax is a periodical journal of Turkish Association of Tuberculosis and Thorax and has been published quarterly in March, June, September and December since 1953. A peer-reviewed system is used to select manuscripts. The languages of the journal are Turkish and English. Original research articles are particularly supported and encouraged.

The goal of the Journal is to present collective scientific knowledge and the scientific background via experimental and clinical studies, reviews, case reports, short communications and letters to the editor. To undertake a novel effort in the international representation and attribution of published articles are the other aims of the journal.

The target readers of the Tuberculosis and Thorax include chest diseases specialists and residents as well as all other physicians working in the field of chest diseases.

#### Subscriptions

Annual Subscription Price List for 2025

Institutional price : 5000 TL

Personal price : 2000 TL

Single issue price : 750 TL

Tuberculosis and Thorax is regularly delivered to the annual subscribers of the journal. The subscription form of the journal is available on: [www.tuberktoraks.org](http://www.tuberktoraks.org) For subscriptions, please contact Turkish Association of Tuberculosis and Thorax (kayaakin4@gmail.com)

# TUBERCULOSIS and THORAX

## TÜBERKÜLOZ ve TORAKS

### INSTRUCTIONS TO THE AUTHORS

1. Tuberculosis and Thorax is the periodical journal of Turkish Association of Tuberculosis and Thorax and is published quarterly (March, June, September, and December).
2. The goal of the Journal is to present collective scientific knowledge via experimental and clinical studies, reviews, case reports, short communications and letters to the editor to the readers to improve the scientific background.
3. The publishing languages are Turkish and English. All manuscripts should comply with the Turkish Language Institution dictionary and the Turkish Language Writing Guide Book (<http://tdk.org.tr>). Anatomic terminology should be based on Latin nomenclature. Medical terms, in daily use, should be written according to Turkish spelling rules. The words required to be written in their original language by the author are written within quotation marks.
4. When first mentioned in the text, microorganism names should be written with the full Latin names of the genus and the species. Both the genus and species names should be italicized. Later, the first letter of the genus should be capitalized while the species name is in lower case letters if the context makes the meaning clear (e.g. *Streptococcus pneumoniae*..... S. pneumoniae).
5. All manuscripts should comply with "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" produced and updated by the International Committee of Medical Journals Editors ([www.icmje.org](http://www.icmje.org)).
6. Tuberculosis and Thorax executes compliance with the Declaration of Helsinki Principles (<http://www.wma.net/en/30publications/10policies/b3/index.html>). All manuscripts concerning human subjects must contain a statement in the "Materials and Methods/Patients and Methods" section, indicating that the study was approved by the Institutional Review Board. There should also be a statement of declaration about informed consent obtained from research subjects, and it should be placed in the "Materials and Methods/Patients and Methods" section. All manuscripts dealing with animal subjects must contain a statement indicating that the study was performed according to "The Guide for the Care and Use of Laboratory Animals" ([www.nap.edu/catalog/5140.html](http://www.nap.edu/catalog/5140.html)) with the approval of the Institutional Review Board, in the "Materials and Methods" section. The Editor may ask for a copy of the approval document.
7. The submitted manuscripts should conform exactly to the instructions in order to be reviewed promptly. The Editor and the Editorial Executive Board have the right to reject, to require additional revision or to revise the format of manuscripts which do not follow the rules.
8. Initial evaluation of the submitted papers is performed by the Editor and the Editorial Executive Board. The papers approved for reviewer evaluation are sent to three selected reviewers as blinded-manuscripts. The decision of acceptance of the manuscripts needs at least two reviewers' affirmative opinions. The Editor is the complete authority regarding reviewer selection. The reviewers are mainly selected from National and International Advisory Board. The Editor may decide to send the manuscript to independent national or international reviewers according to the subject.
9. The dates of submission and acceptance of the manuscript are stated in the end of the manuscript when published in the journal.
10. The manuscripts should be submitted via online manuscript evaluation system ([www.tuberkotoraks.org](http://www.tuberkotoraks.org)).
11. The manuscript text should be written in Verdana font, 10 point-type, double-spaced with 2 cm margins on the left and right sides. The article should be prepared in IBM compatible programs (Microsoft Windows, Word 98 at least). The pages should be arranged in numerical order beginning from the initial page, and the numbers should be at the bottom right corner of every page. The main text should not contain any information regarding author(s)' name and affiliation.
12. The author and the co-authors should sign a cover letter declaring acceptance of full responsibility for the accuracy of all contents in accordance with the order of authors. They should also declare that the manuscript is an original work that has not been previously published, and is not currently submitted to any other publication. The cover letter should include contributions and responsibilities of each author, and whether there is a conflict of interest regarding manuscript. If there is no conflict of interest it should also be stated. In case of any financial contributions, the sponsors should also be denoted in the cover letter. The cover letter may be sent by fax to +90 312 319 00 46 or its scanned copy may be sent by e-mail ([kayaakin4@gmail.com](mailto:kayaakin4@gmail.com)) or submitted concurrently with manuscript submission.
13. All the entities that provide contribution to the technical content, data collection and analysis, writing, revision etc. of the manuscript and yet do not meet the criteria to be an author should be mentioned in the acknowledgement part.
14. The manuscript which has been presented previously as an abstract in any congress or symposium may be mentioned on condition with the statement of the date and the place of the meeting.
15. Abbreviations should be internationally accepted and should be defined accordingly in the text in parenthesis when first mentioned and used in the text.
16. Title page of the manuscript should include Title (Turkish and English), running title (Turkish and English, not more than 40 characters including spaces), Author(s), Institution(s) and Address for Correspondence with e-mail address, fax and phone numbers. Authors should indicate on this page whether the study has been presented previously as an abstract in any congress or symposium.
17. Abstracts should be prepared in Turkish and English for all manuscripts except "Letters to the Editor". Abbreviations should be avoided in abstracts. References, tables and citations should not be used.
18. There should be two to five key words complying with the Index Medicus Medical Subject Headings (MeSH) ([www.nlm.nih.gov/mesh/MBrowser.html](http://www.nlm.nih.gov/mesh/MBrowser.html)).
19. Research Articles should include; Title, structured abstract (Introduction, Materials and Methods/Patients and Methods, Results and Conclusion, limited to 300 words), and key words in Turkish and English, Introduction, Materials and Methods/Patients and Methods, Results, Discussion, Acknowledgement and References. Research articles should not exceed 5000 words and 40 references.
20. The Editor's approval is required before submitting a review article since reviews to be published are planned by the Editor.
21. The reviews should include; Title, unstructured abstract and key words in Turkish and English and the main text section. Limit the abstract to 300 words. The number of references should not exceed 40.
22. Case reports should include; Title, abstract and key words in Turkish and English, Introduction, Case, Discussion and References. Case reports should have a short introduction and discussion sections, and an unstructured abstract should be prepared as one paragraph. The number of references should not exceed 20.
23. Concise independent reports representing a significant contribution in the related field may be submitted as a short communication. The maximum length of a short communication is 1500 words. Short communications should include title, an unstructured paragraph of abstract and 2-5 key words in Turkish and English. The main text should include a maximum of one figure and two tables. Number of references should not exceed 10.
24. The letters to the Editor is for letters that are addressing issues or exchanging views on topics arising from published articles or uncommitted subjects without original research interest. It should not exceed 1000 words and not include an abstract. The number of references should not exceed 10.
25. Figures and tables should be numbered according to the sequence of referral within the text. Each item should be cited in the text.
26. Each table should be prepared with double spacing on a separate page. Tables should have a brief title. Authors should place explanatory matter

# TUBERCULOSIS and THORAX

## TÜBERKÜLOZ ve TORAKS

### INSTRUCTIONS TO THE AUTHORS

in footnotes not in the heading. Explanations should be made for all nonstandard abbreviations in footnotes. The following symbols should be used for abbreviations, in sequence: \*,†,‡,§,||,¶,\*\*,††,‡‡. Each table should be cited in text.

27. Figures should be either professionally drawn or photographed, and these items should be submitted as photographic-quality digital images. Figures should be submitted in a format that will produce high-quality image (for example, JPEG or GIF and at least 300 DPI). Authors should control the images of such files on a computer screen before submitting them to be sure they meet their own quality standards.
28. X-ray films, scans and other diagnostic images, as well as pictures of pathology specimens should be submitted as sharp, glossy, black-and-white or color photographic images (at least 300 DPI). Letters, numbers, and symbols on figures should be clear and consistent throughout, and large enough to remain legible when the figure is reduced for publication. Figures should be made as self-explanatory as possible. For recognizable photographs of patients, signed releases of the patient or of his/her legal representative should be submitted; otherwise, patient names or eyes must be blocked out to prevent identification.
29. Type or print out legends for illustrations using double spacing, starting on a separate page, with Arabic numerals corresponding to the illustrations. When symbols, arrows, numbers or letters are used to identify parts of illustrations, identify and explain each one clearly in the legend.
30. When the author(s) has/have used a figure or table from another source, permission of the author and publisher must be obtained, the necessary printing permission document must be provided and the source referred to in the text.
31. **References**

Data and manuscript that have not yet been published should not be cited as reference. These should be stated in the main text as "author(s), unpublished data, year".

References should be numbered consecutively in the order in which they are mentioned in the text. Identify references in the text, tables and legends at the end of the sentences in brackets. List all authors up to six authors. For more than six authors, list the first six authors followed by "et al". Journal names should be abbreviated as listed in "Index Medicus" or in "ULAKBIM/Turkish Medical Index". Note the following examples:

#### Journal articles;

The names of the first six authors, title of the article, abbreviated title of the journal, the year of publication, numbers of the volume and relevant page numbers of the article.

Köksal D, Bayız H, Gülgösteren M, Başay N, Mutluay N, Boyacı E, et al. Recurrence of thymoma after 11 years presenting as diffuse pleural thickening. *Tuberk Toraks* 2012;60:62-5.

#### Supplement;

The names of the authors, title of the article, abbreviated title of the journal, the year of publication, numbers of the volume, numbers of supplement in bracket and relevant page numbers of the article.

Andreoni M. Phenotypic resistance testing. *Scand J Infect Dis* 2003;35(Suppl 106):S35-S36.

#### Book;

The names of the authors, title of the book, numbers of the volume, the city, the publisher, the year of publication.

Green AB, Brown CD. Textbook of Pulmonary Disease. 2<sup>nd</sup> ed. London: Silver Books, 1982:49.

#### Book chapter;

The names of the authors, title of the article, the editors, title of the book, numbers of the volume and the issue if existing, the city, the publisher, the year of publication and the relevant page numbers of the article.

Grey EF. Cystic fibrosis. In: Green AB, Bown CD (eds). Textbook of Pulmonary Disease. London: Silver Books, 1982:349-62.

#### Congress presentation;

The names of the six authors, title of the presentation, the editors, title of the congress book, title of the congress, date of the congress, the city, the country, the publisher, the year, the relevant page numbers.

Bengtsson S, Solheim BG. Enforcement of data protection, privacy and security in medical informatics. In: Lun KC, Degoulet P, Piemme TE, Rein-hoff O, editors. MEDINFO 92. Proceedings of the 7th World Congress on Medical Informatics; 1992 Sep 6-10; Geneva, Switzerland. North-Holland; 1992.p.1561-5.

#### Journal published electronically;

The names of the first six authors, title of the article, abbreviated title of the journal, year of the publication, numbers of the volume, the relevant page numbers, electronically publication date.

Lemmon GH, Gardner SN. Predicting the sensitivity and specificity of published real-time PCR assays. *Ann Clin Microbiol Antimicrob* 2008; 7: 18. Epub 2008 Sep 25.

#### Web site;

The name of the web site. Accessed date. Available from: Address of the web site.

World Health Organization (WHO). Accessed date: 2008 Jul 9. Available from: <http://www.who.int>

#### Thesis;

The names of the authors. Title of the thesis. The city: The university or institution; the year.

Bal ZC. The frequencies of Moraxella (Branhamella) catarrhalis in respiratory specimens (thesis). Istanbul: Istanbul University Istanbul Medical Faculty; 1993.

32. Scientific and legal responsibilities pertaining to the paper belong to the authors. The ideas and recommendations mentioned in the articles and accuracy of the references are the responsibility of the authors. The owner of copyright of the accepted manuscript is Turkish Association of Tuberculosis and Thorax. After acceptance of the manuscript, a copyright transfer form is sent to the author of correspondence by e-mail and required to be signed and returned by e-mail ([kayaakin4@gmail.com](mailto:kayaakin4@gmail.com)) or by fax (+90 312 319 00 46).

33. There is no royalty payment to the authors.

34. If the authors are not subscribers of the journal, the issue including their article will not be sent to the authors.

#### Citation

Tuberk Toraks

#### Publication Rights

Bilimsel Tip Yayınevi (All rights reserved).
